

Offenbach Energy from Waste Plant: Facts & Figures

MHKW of a Subsidiary

MVV Energie has a 50.1 % participation in Energieversorgung Offenbach AG (EVO). The EVO Group has 1000 employees and annual sales of over Euro 360 million. Founded in 1847, EVO is a company with tradition and today supplies over 160 000 customers with electric power, gas, water and district heating. EVO can look back on over 35 years of experience in the area of waste incineration.

The Offenbach MHKW manages household waste for ca. 900 000 residents in the Rhine-Main region. In so doing, waste is processed mainly from the city of Offenbach and the surrounding region, from Main-Kinzig County, as well as quantities from the city of Frankfurt and municipalities in Main-Taunus County.

Facts & Figures about the MHKW:

Permit:	Issued in accordance with the national Clean Air Directive
Commissioned:	1970
Types of waste:	Household refuse, curbside rubbish, commercial waste comparable to household waste
Firing:	Stoker grate with six roller-type grates
Waste bunker capacity:	6 000 m ³
Yearly throughput:	250 000 Mg/a
Design calorific value:	10 000 kJ/kg
Live steam production:	630 000 Mg/a at 40 bar, 405° C
Electric power generated:	75 000 MWh/a
District heating:	180 000 MWh/a
Residues:	65 000 Mg/a slag 5 400 Mg/a fly ash

Wir sind für Sie nah.

Here's how to find the Offenbach MHKW

Take the A3 to Frankfurter Kreuz, and then drive towards Würzburg to the Offenbacher Kreuz. Turn off at the first exit to the A661 towards Darmstadt, then at the first Neu-Isenburg/Heusenstamm exit towards Heusenstamm. Make a left turn at the second intersection towards Offenbach; after ca. 700 metres you will come to the entrance to the MHKW on the left-hand side of the road.
